Whilst looking forward to regular income from independently valued company that forms part of your long term investment portfolio

EXECUTIVE SUMMARY

In a world increasingly conscious of environmental sustainability, investing in companies that make positive impact on the planet is not just a moral choice, its a strategic one.

Trees4good is a visionary forestry company, standing at the intersection of environmental stewardship and financial growth. As global demand for reforestation and carbon offset initiatives accelerates, Trees4Good offers a unique opportunity to invest in a venture that is a green for your investment portfolio, as it is for the planet.

BUSINESS MODEL

Trees4Good operates on a scalable business model that combines direct forestry services with innovative carbon credit trading. By partnering with governments and corporations, the company not only helps meet reforestation targets but also generates substantial revenue through the sale of carbon credits. Diversified income base, reducing risk and enhancing profitability.

MARKET OPPORTUNITY

The market for reforestation is expanding rapidly. with government, corporations and individuals all committing to ambitious carbon neutrality goals . The demand for forestry is projected to surge . According to industry reports, the global reforestation market is expected to reach \$75 billion by 2030.

THE OPPORTUNITY

Trees4Good is offering a different route to investment, through the purchase of either

- | | |
|----------|--|
| Option 1 | Ordinary Shares |
| Option 2 | A Class Ordinary Shares |
